Teacher Induction—California Clear Credential (School Mentor Track)

Over two academic years, candidates engage in a CTC-approved individualized, job-embedded system of mentoring, support, and professional learning, which becomes a vehicle for the growth and self-reflection required of successful teachers in our state’s increasingly diverse classrooms. This option is available if you have a potential Induction Site-Based Mentor at your school that you would like to work with during the course of the Induction program.

The curriculum consists of an introduction course and four core courses. Candidates with two or more years of successful teaching performance at a United States public school may qualify for the Early Completion Option.
